

Nucleus has won the **prestigious Titanium Award at the Asset Triple A Corporate Awards 2012** for the below mentioned categories:

- Investor Relations,
- Corporate Governance and
- Environment Responsibility.

The Asset Triple a Awards are Asia’s defining recognition for excellence in the industry. These awards have been designed to provide a highly rigorous bench marking service for corporates that takes into account both quantifiable financial performance as well as more subjective factors of corporate governance, investor relations, social and environmental responsibility.

To emerge as a winner, Nucleus underwent a two step benchmarking process:

- In the quantitative phase, our competency was judged through an online questionnaire.
- In the qualitative phase, The Asset consulted institutional investors for their views on Nucleus.

Titanium award winners – 2012 scorecard					
Winner	Company	Sector	Corporate governance %	Environmental responsibility %	Investor relations %
TITANIUM AWARD FOR CORPORATE GOVERNANCE, ENVIRONMENTAL RESPONSIBILITY AND INVESTOR RELATIONS					
	Nucleus Software Exports	Technology	65%	64%	75%

This year more than 60 companies are honored for their achievements in The Asset’s Excellence in Management and Corporate Governance Benchmarking and we feel great to be enlisted amongst other Indian winners like Infosys, Persistent Systems and Dr. Reddy’s.
